

TOWNS OF LAS VEGAS

BY SPECIAL CORRESPONDENT

Las Vegas, Sept. 26.—William Freese came down yesterday evening from El Porvenir. He says the diamond drill has not been working for a couple of weeks there in the coal fields owing to a delay in some machinery. He also said that a tunnel had been run in about twenty feet in the side of the mountain in the first canyon this side of Porvenir, and that a sixteen inch vein of coal had opened up. They propose to tunnel in 100 feet and then cross out. Three men are at present working in the tunnel and Mr. Freese is very enthusiastic about the outlook for coal and other mineral in that region. He also said another mining party arrived there yesterday to prospect and three natives had opened up a good vein of black diamonds a short distance farther on. El Porvenir seems destined to in time supply all this part of the county with good fuel, as the coal already taken out is of a fair quality and burns well.

IT'S IMPOSSIBLE.

To Disprove Facts—it is Decidedly Easy to Verify Albuquerque Opinion.

Nothing by way of an introduction could be added to the experiences and opinions given below, which could increase their value. Albuquerque people can safely be left to draw their own conclusions based on such convincing proof as this citizen offers. What is there lacking in evidence like this to satisfy a dyed-in-the-wool doubting Thomas?

Mrs. M. J. Butler, (M. J. Butler, night watchman in the Santa Fe shops), residence, 717 East street, says: "When I went to the Albuquerque Pharmacy for Doan's Kidney Pills I had an attack of backache. It was only one of many which had annoyed me for two or three years. At first they were mild and I expected they would leave just as mysteriously as they came, but with the passing of time the attacks were more frequent and of longer duration. I used three boxes of Doan's Kidney Pills and was rewarded with an entire cessation of the aching. Up to date, and it is considerably over six months since I stopped the treatment, there has not been a sign of any recurrence."

from Red River, Minn., accompanied her here for a visit.

George Alexander, a conductor back east who came here for his wife's health, has himself taken down and is quite sick.

Margarito Romero opened headquarters in Buffalo hall this morning during the convention and was trying to inveigle the faithful in there. He pulled off a meeting there last night in which he stated that he wanted to organize an independent republican party. The party was launched at this meeting but got only a few sore-head signers.

San Miguel Republicans.

The republican county convention to select seventeen delegates to the territorial convention at Raton met this morning, the crowd coming in from all over the county to attend. There were 139 delegates on the list, and the majority of them favor the administration, as against Margarito Romero's faction.

Eugenio Romero was made temporary chairman, and A. T. Rogers, Jr., secretary, with E. H. Salazar and Patricia Gonzales interpreters. It was not all harmony up to noon, for Margarito Romero and some of his followers occasionally got rambunctious, but gained little.

Pablo Jaramillo, Zecarias Valdez and Margarito Romero were made a committee on credentials and found all but five precincts, with eight delegates present. A committee on permanent organization was appointed as follows: C. A. Siles, Felix Esquivel, J. Ma. Quiriana, Roman Gullagos and Nestor Gilego. The committee on resolutions was Secundino Romero, Leandro Lucero, F. O. Blood, Felix Garcia and Jacinto Lopez.

These committees were to bring in their reports at 2 o'clock to which time a recess was taken.

The committee on permanent organization reported 24 fellows, which was adopted almost unanimously.

Eugenio Romero, president; A. T. Rogers, Jr., secretary; B. F. Forsythe, first vice president; Jesus Ma. Quintana, second vice president; E. P. Salazar and N. Segura, interpreters.

The rules adopted were the regular parliamentary ones for such a meeting and the committee on resolutions reported the following, which were adopted, with but one dissenting voice, Margarito Romero himself. The delegates as met time have not been selected:

The republican party of the county of San Miguel, in convention assembled, reaffirms its allegiance to the party that has given protection to the industries of this territory and the nation, thereby creating good times throughout our country. Republican principles as declared in the national platform adopted at Philadelphia in 1909 are responsible for the prosperous industrial conditions which prevail throughout the United States and we voice the opinion of all republicans of this territory in demanding that congress keep its hands off the present tariff law. Let well enough alone is the opinion of our people, and tariff tinkering is but the opening wedge to disturbed business conditions. All trades and industries are thriving and the very discussion of proposed changes in the tariff is a menace to prosperity and business confidence.

While deploring the untimely death of President McKinley, we recognize in President Roosevelt one in whom the country can and do safely rely. Our people know him more intimately than they have known any other president and they rely upon the words of encouragement used by him in addressing our people when he had the honor of entertaining him as our guest.

We commend him for his wisdom in pursuing a policy in accord with that enunciated by our late martyred president, and believing that his administration is not the best interest of our people, both past and present, and that it redounds to the honor and glory of our common country, we heartily commend the same and we hereby instruct our delegates to the convention to nominate a candidate for delegate to congress, which is to meet in the city of Raton on October 10, 1909 to present a resolution to void convention and advocate its passage immediately by the course of President Roosevelt, and pledging the support of the delegates from New Mexico to the republican national convention to be held in 1904, for his re-nomination.

We endorse the administration of Governor M. A. Otero. In his appointment the president made selection of the choice of all the republicans of New Mexico. During his entire career as governor of New Mexico he has been guided by a desire to conduct the public affairs as to reflect credit not only upon himself but the entire people of the territory without regard to political opinion or beliefs.

Every republican convention in this territory for years has made a demand for the admission of New Mexico into the sisterhood of states. We repeat that demand and in doing so most heartily commend and endorse the efforts of our delegate in congress, Bernard S. Rodey, in passing the statehood bill through the lower house of congress, and extend to him every possible assistance in his work before the senate and in the securing of the passage of the bill by that body. The republican party of the United States through its national platform has repeatedly stated that the party was in favor of the admission of New Mexico and we now call upon those United States senators who helped draft those

The world moves on, and so does the wonderful reputation of Paine's Celery Compound as a never failing cure for nervousness, sleeplessness, headache, debility, dyspepsia, rheumatism, neuralgia, liver and kidney troubles, and impure blood.

As the sun rises in the morning to cheer and enliven the earth, so does Paine's Celery Compound go forth to bestow the blessings of health to the diseased and suffering. This is the character of work that Paine's Celery Compound is accomplishing. Parents are saved to children and children to parents.

Have you, sufferer, tested this wonderful life giver? If not, you are not doing justice to yourself or family. Paine's Celery Compound has saved tens of thousands of our wealthy and plain people; it will not fail in your case. Be wise and follow the example of the saved ones. Mrs. M. E. Moore, Cuba, Kan., tells of her marvelous cure as follows:

"Ten years ago I was so crippled with rheumatism that I could not walk, besides being troubled with my kidneys. Today, while I am nearly 75 years of age, I am robust and strong. Paine's Celery Compound completely cured me."

platforms as well as by leading republicans in the house of representatives that those planks in the several national platforms were mere political baubles.

We most heartily endorse the administration of public affairs by our present county officials. Every dollar of the public funds collected is accounted for and all public debts are paid as fast as they accrue. We point to this with pride and call attention to the state of affairs that existed in this county when its affairs and the public funds were in the hands of the so-called union party.

The Worst Form.

Multitudes are singing the praises of Kodal, the new discovery which is making so many sick people well and weak people strong by digesting what they eat, by cleansing and sweetening the stomach and by transforming their food into the kind of pure, rich, red blood that makes you feel good all over. Mrs. Cranfill, of Troy, I. T., writes: "For a number of years I was troubled with digestion and dyspepsia which grew into the worst form. Finally I was induced to use Kodal and after using four bottles I am entirely cured. I heartily recommend Kodal to all sufferers from indigestion and dyspepsia." Take a dose after meals. It digests what you eat. B. H. Briggs & Co.—J. H. O'Reilly & Co.

Not Quite Ready.

Hon. W. H. Andrews, president, and Hon. W. S. Hopewell, vice president, prominent officials of the Albuquerque Eastern and Santa Fe Central railways, will return to Santa Fe tonight. Rumor has it that the mission of the two gentlemen here is to arrange to commence work at an early day on this end of the Albuquerque Eastern railway, but when Mr. Hopewell was seen and the question put direct to him, he smiled and remarked: "Not quite ready to give out the good news, but it is coming."

Funeral of the Suicide.

The funeral of Mrs. Laura Hudson, the colored woman who committed suicide yesterday took place at the parlors of O. W. Strong & Sons this afternoon at 2 o'clock. As she had a large number of friends in the city the funeral was well attended. The remains will be taken to Booneville, Mo., tonight and will be taken charge of by her aunt, Mrs. Bell Jackson. The husband, Oscar Hudson, will accompany the remains. Her intimate friends have very little sympathy for the husband. They attribute the cause of all the trouble to him.

Natural Anxiety.

Mothers regard approaching winter with uneasiness, children take cold so easily. No disease costs more little lives than croup. Its attack is so sudden that the sufferer is often beyond human aid before the doctor arrives. Such cases yield readily to One Minute Cough Cure. Liquidifies the mucus, allays inflammation, removes danger. Absolutely safe. Acts immediately. Cures coughs, colds, grip, bronchitis, all throat and lung trouble. F. S. McMahon, Hampton, Ga. "A bad cold rendered me voiceless just before an oratorical contest. I intended to withdraw but took One Minute Cough Cure. It restored my voice in time to win the medal." B. H. Briggs & Co.—J. H. O'Reilly & Co.

J. Foley, of El Paso, who has been in the city several days returned home last night.

MEXICAN TRAIN SERVICE.

President Robinson Going to Topeka to Consult With Santa Fe Officials.

A. A. Robinson, president of the Mexican Central railroad, accompanied by his family and a party of friends, passed through the city this morning, in a private car, en route for Topeka, Kan., where he goes to attend a meeting of prominent Santa Fe officials. The meeting which is being held at Topeka this week is of considerable importance to Albuquerque, El Paso and the City of Mexico. A new time card is one of the purposes. A second purpose is a consultation in regard to a fast train between Albuquerque and the City of Mexico.

The Mexican Central people have been trying for some time to get a limited connection with the Chicago and California Limited. Such a train would necessarily be made up in Albuquerque and would add some to the train service men kept in this city. It would also give first class service between here and El Paso and the City of Mexico, and by so doing get back a certain amount of travel lost by the building of the Rock Island.
